Dear Parents/Guardian

Re: Year 12 Module Entries 2021-2022

Following careful consideration with the Heads of English, Mathematics and Science Departments, we have decided to enter Year 12 students for the following modules in the forthcoming November Examination Series:

Subject	Date	Time
DAS: Biology Unit 1	Monday 22 nd November 2021	9:15-10:15am
English Language Unit 1	Friday 26 th November 2021	9:15-11:00am

Continued preparation will be ongoing in English Classes. Biology Workshops will be scheduled in the weeks leading up to the module. Students should listen carefully to examination guidance from their teachers in the weeks ahead and engage proactively in an independent programme of revision.

Students will be entered for Chemistry and Physics modules in the February Examination series.

Mathematics modules will take place in May/June 2022.

We hope this stepped approach will support your daughter as she manages the demands of this important academic year.

If you have any queries, you are welcome to telephone me at the school.

Yours sincerely,

Mrs C. Turbitt

Vice-Principal
